

Monographs and Surveys

1. M. Ashordia, The Initial Problem for Linear Systems of Generalized Ordinary Differential Equations, Linear Impulsive and Ordinary Differential Systems. Numerical Solvability. *Mem. Differential Equations Math. Phys.* **78** (2019), 1-162.
2. N. Berikashvili, Differentials of spectral-sequence. *Trudy Tbiliss. Mat. Inst.* **51**(1976), 1-106.
3. G. Berikelashvili, Construction and analysis of difference schemes for some elliptic problems, and consistent estimates of the rate of convergence. *Mem. Differential Equations Math. Phys.* **38** (2006), 1-131.
4. A. V. Bitsadze, To the problem of mixed type equations. (Russian) *Trudy Mat. Inst. AN SSSR*, v. 41, 1953.
5. A. V. Bitsadze, Mixed type equations. (Russian) *Itogi nauki, Moscow*, 1959.
6. A. V. Bitsadze, Boundary value problems for elliptic equations of second order. (Russian) *Nauka, Moscow*, 1966.
7. A. V. Bitsadze, Some class of partial differential equations. (Russian) *Nauka, Moscow*, 1981.
8. F. Borceux and G. Janelidze, Galois theories. *Cambridge Studies in Advanced Mathematics* **72**, Cambridge University Press, 2001.
9. T. Buchukuri, O. Chkadua, R. Duduchava, and D. Natroshvili, Interface crack problems for metallic-piezoelectric, *Mem. Differential Equations Math. Phys.* **55** (2012), 1-150. Free access: <http://www.rmi.ge/jeomj/memoirs/vol55/contents.htm>
10. T. Buchukuri, O. Chkadua and D. Natroshvili, mathematical problems of generalized thermo-electro-magneto-elasticity theory. *Mem. Differential Equations Math. Phys.* **68** (2016), 1-166.
11. T. V. Burchuladze, T. G. Gegelia, Development of the potential method in the theory of elasticity. (Russian) *Tbilisi, Metsniereba*, 1985.
12. V. G. Chelidze, Double Denjoy's integrals. (Russian) *Trudy Tbiliss. Mat. Inst. Razmadze Akad. Nauk Gruzin. SSR* **15**(1947), 155-242.
13. V. G. Chelidze and A. G. Jvarsheishvili, The theory of a Denjoy's integral and its applications. (Russian) *Tbilisi Univ. Press, Tbilisi*, 1978.
14. R. Chichinadze and T. Gegelia, Boundary value problems of mechanics of continuum media for a sphere. *Mem. Differential Equations Math. Phys.* **7**(1996), 1-222.
15. G. Chogoshvili, On level surfaces and regions of smaller values. *Akad. Nauk Gruzin. SSR* **17**(1949), 208-243.
16. T. Datuashvili, Categorical, homological, and homotopical properties of algebraic objects, *J. Math. Sci. (N.Y.)* **225** (2017), no. 3, 383-533.

17. R. Duduchava, Integral equations of convolution type with discontinuous presymbols, singular integral equations with fixed singularities and their applications to some problems of mechanics. (Russian) *Trudy Tbiliss. Mat. Inst. Akad. Nauk Gruzin. SSR* **60**(1979), 1-135.
18. R. Duduchava, Integral equations with fixed singularities. *Teubner, Leipzig*, 1979.
19. R. Duduchava and B. Silbermann, Boundary value problems in domains with peaks. *Mem. Differential Equations Math. Physics* **21**(2000), 1-121.
20. O. Dzagnidze, Some new results on the continuity and differentiability of functions of several real variables. *Proc. A. Razmadze Math. Inst.* **134** (2004), 1-138.
21. ო. ძაგნიძე. ფურციეს ანალიზი, ოსუ-ს გამომცემლობა, 2015, 274 გვ. (სახელმძღვანელო).
22. A. Dzhishkariani, Approximate solution of one class of singular integral equations by means of projective and projective-iterative methods. *Mem. Differential Equations Math. Phys.* **34** (2005), 1-76.
23. D. E. Edmunds, V. Kokilashvili, and A. Meskhi, Bounded and compact integral operators. *Mathematics and Its Applications, Kluwer Academic Publishers, Dordrecht-Boston-London*, 2002.
24. M. Eliashvili, On the quantum fields and systems with ordered ground states. *Mem. Differential Equations Math. Phys.* **9**(1996), 1- 170.
25. L. Ephremidze, *Real Analysis Methods in Ergodic Theory*, Nova Science Publishers, New-York, USA, 2012.
26. V. Franjou, E. M. Friedlander, T. Pirashvili, and L. Schwartz, Rational representations, the Steenrod algebra and functor homology. *S. M. F. Panoramas et Synthèses*, 16. Paris, 2003.
27. V. R. Garsevanishvili and Z. R. Menteshashvili, Relativistic nuclear physics in the light front formalism. *Nova Science Publishers Inc., New York*, 1993.
28. Sh. Gelashvili and I. Kiguradze, On multi-point boundary value problems for systems of functional differential and difference equations. *Mem. Differential Equations Math. Phys.* **5**(1995), 1-113.
29. I. Genebashvili, A. Gogatishvili, V. Kokilashvili, and M. Krbec, Weight theory for integral transforms on spaces of homogeneous type. *Pitman Monographs and Surveys in Pure and Appl. Math., Addison Wesley Longman*, 1998.
30. V. Gogokhia and G.G. Barnafoldi, *The Mass Gap and its Applications*, World Scientific, 2012.
